One key feature of our companion is its use of long descriptive keywords for alt attributes. Alt attributes are used to describe images, making them accessible to visually impaired individuals. By incorporating relevant long descriptive keywords, we ensure that everyone can benefit from our study materials, regardless of their visual abilities.

Additionally, our companion utilizes a long tail clickbait title. Now, you might be wondering, what exactly is a long tail clickbait title? Well, a long tail keyword is a specific keyword phrase that usually contains three or more words. Clickbait, on the other hand, is a technique used to create curiosity and encourage users to click on a link. By combining these elements, we create an engaging title that captures your attention and sparks your interest in our companion for intensive care exams.

Critical Care MCQs is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice.

Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding.

It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other country-related intensive care exams.
