Learn the Ropes of Using the Baofeng UV-5R With the Help of This Book.

Are you a new proud owner of the Baofeng UV-5R? The Baofeng UV-5R is probably one of the best amateur radios of all time. It is impressive, inexpensive, and it is often the first radio that people get introduced to when getting into the hobby. But this radio has one fatal flaw - the instruction manual.

Say goodbye to struggles because this book will show you everything you need to know to get Baofeng UV-5R up and running in no time.

The Baofeng's manual is so complicated and unintelligible, and it doesn't really show you how to use the radio properly. Every amateur radio operator who buys this radio struggles to get enough information out of the manual to actually use the radio as intended. You can find information on the Internet, of course, but it's scattered around dozens of websites, and it can take you hours and even days to find the information you want.

This book will show you the quick and easy way to set up and get your radio running right away.

This book has all the information you will need in one place. Inside you will find guides on how to program both simplex and repeater frequencies from the front keypad. You will also learn how to install and use free software to make it even easier for you to program your radio.

Here's what this book can offer you:

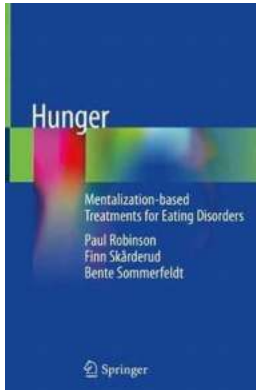

- All about basic controls, commands, keys, and display of your device
- Effective programming and use of basic operations and menu options
- Hidden shortcuts and button combinations
- Easily program simplex and repeater frequencies from the front keypad
- And much more!

If you want to use your Baofeng UV-5R radio without any hassle, all you have to do is to follow the easy step-by-step guides and instructions found in this book - it's that easy. Don't struggle to figure out your radio! Grab a copy of this book and spend your time enjoying your new hobby, not fighting with it.
