## Discovering the Unseen

One of Charles' favorite adventures is exploring new cities and neighborhoods, armed with his trusty camera. He wanders down unfamiliar streets, not knowing what he will find, but confident that something remarkable awaits him just around the corner.

His photography focuses on capturing the essence of a place through its details. He notices the intricate carvings on old buildings, the vibrant colors of street murals, and the play of light and shadow on everyday objects. Through his lens, Charles gives a voice to the forgotten and overlooked aspects of our surroundings.

Each photograph he takes is a testament to his ability to find beauty in the mundane. The way a leaf dances in the wind, the symmetry of a row of parked bicycles, or the pattern created by the reflection of a city skyline in a puddle all become subjects of his art. Through his photographs, Charles invites us to pause, observe, and appreciate the unnoticed beauty of our surroundings.

## The Power of Perspective

Charles' noticings extend beyond photography. He also has an incredible talent for storytelling, which he shares through his blog. He transforms the seemingly ordinary into extraordinary narratives, infusing his writing with emotion, humor, and a deep sense of connection.

By sharing his noticings, Charles encourages others to adopt a different perspective. He reminds us that there is beauty in simplicity, joy in the little things, and wonder in the everyday. Through his words, he invites us to slow down, embrace our surroundings, and discover the extraordinary in the ordinary.

## **Embracing Noticings Along The Way**

Charles' story serves as a reminder that noticings are not limited to a select few. Each one of us has the potential to cultivate the art of noticing, to take a moment to pause, and to truly see the world that surrounds us.

Whether it's on our daily commute or during weekend exploration, we, too, can develop a deep appreciation for the little things that often go unnoticed. By simply opening our eyes and being present, we allow ourselves to experience the wonder and beauty that exists in the world, waiting to be discovered.

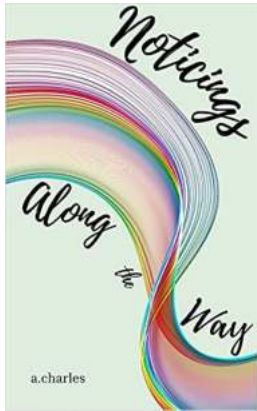

Charles' ability to notice beauty and meaning in the ordinary is truly awe-inspiring. Through his art, he invites us to shift our perspective and appreciate the intricacies of our surroundings.

So next time you take a walk, take a page out of Charles' book. Embrace the noticings along the way, and you might just discover a world you never knew existed.

This book is a collage and a tapestry. In *Noticings Along the Way*, a.charles weaves a sense of wonder, a dash of intuition, and hints of humor as he gently takes the reader by the shoulders, turns them ever so slightly, and shakes. Very few will finish this book untouched by something,

something unexpected,

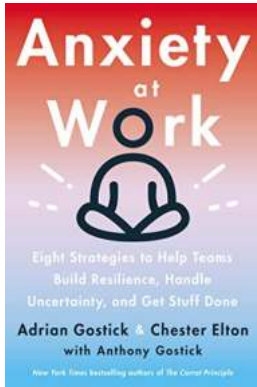

something needed,

something.
