The books are a unique compilation of remarkable statements made by ordinary people receiving medical care. These are the only works to specifically showcase the patients' side of the humor in healthcare. The quotes are set in an order that

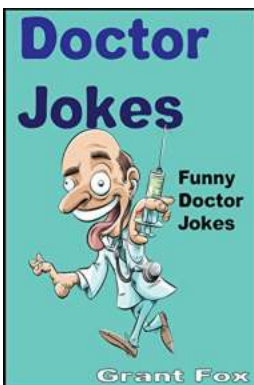

shares with the reader the emotional roller coaster experienced by the people involved. They prove you've never heard them all. Just when you think you know what to expect, people will throw you a curve ball. Someone in pain will teach you about joy. The one in crisis will remind you about faith, and a person facing death can teach you how to live.
