This is a Meta4Kids story for helping children to overcome the emotional impact of bullying, as well as helping them to feel safe and self-confident.

The Meta4Kids series of interactive eBooks are a world-first! They are written by a parent, for parents to read to their children to overcome childrens' issues. The Meta4Kids stories have successfully changed many childrens' lives for the better (and to the relief of the parents!) by encouraging them to change their behaviours through a simple story which contains a metaphor, in conjunction with specific language, gestures and pauses.

Everyone's unconscious mind has an age of about 7 years old... and every 7 year old child loves a story. For a child it allows them to use their imagination which creates the solution without them knowing.

Metaphors are used in everyday life to explain situations, what we do is to adapt them to suit childhood issues to get the results that we want. Children as young as 18 months have shown considerable change in habits after only a few readings. These stories are only designed for children up to the age of 10. The concepts work on older kids and adults, just not these stories.

With the growth of the internet and social media (and perhaps the lack of discipline for some kids) the number of children suffering from bullying or cyber-bullying is unfortunately increasing. The Bubble story helps children to feel safe, secure and self-confident in all that they deal with, including a bully. This story also helps them to balance their emotions by creating a bubble of safety around them.

The author, Stuart Walter, is a father and is professionally trained in Clinical Hypnotherapy. He is a published author and movie collaborator and is regarded as an Australian specialist.

During his training, Stuart began to create and deliver stories to his son and now these experiences have all been converted into a series of 20+ stories for parents around the world. Stories are available individually, in packs of 3 specifically targeted to an issue or the complete 'Meta4Kids Toolbox' including all the stories, Kids and Mums MP3 downloads and exclusive Meta4ids Sleep Music.

Stuart says "The results still amaze me... and I wrote the stories! Every child and parent will benefit, as you get to understand the stories, each parent will become aware of the subtle changes they can make in communication to create amazing changes and improvements in kids".
