The year is 1920, and Chakradhar, the chief of research of the Vaigyanaas, has found the cure to death - a perfect formula to resurrect those who have recently succumbed to eternal sleep. When the love of his life, the Swargeeyan Princess Keyashree, requests him to bring back her dying mother, the scientist does so, even though the Swargeeyan royalties hate him for it. Chakradhar hoped that the enmity between the two clans might finally come to an end with the queen's resurrection. But the fates had other plans.

A century later, when a young man named Atharv is resurrected by a mysterious monocled man, he is given a new chance to redeem his life, new hope to make amends with his father, and a new beginning with the girl of his dreams. But to preserve this gift of life, he must steal the most powerful weapon from the Vaigyanaas - the Ek Mukhi Rudraksha.

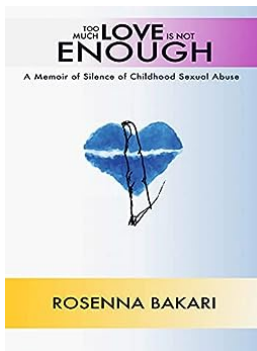

As the story oscillates between past and present, depicting the fall of Chakradhar while narrating Atharv's constant efforts to reach his goal, the narrative takes a turn when the present merges with the past and a greater conspiracy is revealed. What if Atharv is being lied to? What if he reaches his destiny only to be played

as a pawn in a colossal game? The answer lies within the bound pages of this book and will only be revealed in a roller-coaster read.
