The Externalisation Of The Hierarchy focuses on the dissemination of spiritual energies, ideas, and teachings that serve to awaken humanity, foster better understanding, and lead individuals towards spiritual evolution. This transformative process involves breaking through old, limiting thought patterns and embracing a more inclusive and compassionate worldview.

## Key Principles of the Externalisation Of The Hierarchy

Let us delve deeper into the key principles put forth by Alice Bailey regarding the Externalisation Of The Hierarchy:

### 1. Unity and Interconnectedness

According to Bailey, one of the fundamental principles underlying the Externalisation Of The Hierarchy is the recognition of the unity and interconnectedness of all beings. By acknowledging this interconnectedness, we begin to realize that our actions and thoughts affect not only ourselves but also the collective consciousness of humanity. Through this understanding, we can consciously work towards creating a harmonious and compassionate world.

### 2. Service and Spiritual Evolution

Bailey emphasizes the importance of service to others as a means of spiritual evolution. As we align ourselves with the goals and intentions of the spiritual hierarchy, we contribute to the greater good, ultimately accelerating our own spiritual growth. By selflessly serving humanity, we tap into our innate divinity and become catalysts for positive change.

### **3. Transformation Through Meditation**

Another crucial aspect of the Externalisation Of The Hierarchy is the transformative power of meditation. By engaging in regular meditation practices, individuals can connect with the higher dimensions of consciousness and attune themselves to the spiritual energies emanating from the spiritual hierarchy. Through this deep connection, inner transformation occurs, paving the way for personal and collective evolution.

## **The Practical Application of Alice Bailey's Teachings**

The concepts presented in the Externalisation Of The Hierarchy may sound fascinating, but how can we practically apply them in our daily lives? Let's explore some ways to integrate Alice Bailey's teachings:

### **1. Self-Reflection and Self-Awareness**

Start by cultivating self-reflection and self-awareness. By becoming conscious of our thoughts, emotions, and actions, we can identify any negative patterns or beliefs that may hinder our spiritual growth. Through this introspective journey, we gain clarity and understanding, enabling us to make conscious choices aligned with the principles of the spiritual hierarchy.

### **2. Compassionate Action**

Embody the spirit of compassion and selflessness by engaging in acts of kindness and service to others. Whether it's volunteering for a charitable cause,

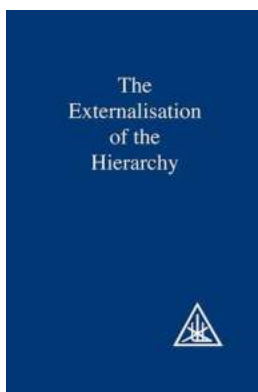

lending a helping hand to those in need, or simply practicing empathy and understanding in our interactions, every small act of compassion contributes to the externalization of the spiritual hierarchy's influence.

### 3. Consistent Meditation Practice

Establish a consistent meditation practice, dedicating time each day to connect with your inner self and the spiritual energies that surround us. Guided meditations, visualization techniques, or silent contemplation can all serve as powerful tools to enhance your connection with the spiritual hierarchy, facilitating personal growth and external transformation.

#### : Embracing the Externalisation Of The Hierarchy

The Externalisation Of The Hierarchy, as introduced by Alice Bailey, offers us valuable insights and guidance for our spiritual journey towards the Age of Aquarius. By understanding the interconnectedness of all beings, embracing service and spiritual evolution, and engaging in transformative meditation practices, we can actively contribute to the externalization of the spiritual hierarchy's influence.

The subject of human free will has always contrived to set men's mental teeth on edge. The fatalist automatically resigns himself to whatever befalls him, seeing in effects no cause attributable to his own action - or inaction; but resigned always to the working of an inexorable fate.

The Christian counterpart tends to accept his lot as the working of God's Will in which he has no say or part. At the other extreme stands the rebellious independent, determined to exercise his right to free, self-willed action.

This book, as one of its many values, shows the extent to which Hierarchy and other centres of life on the planet are dependent upon the unpredictable and often irresponsible factor of human free will. During the years leading up to the outbreak of World War II, every opportunity and every possible spiritual stimulation was offered to humanity in an effort to avoid precipitation of conflict on to the physical plane. Disciples and aspirants to discipleship were asked to give special cooperation to the Hierarchy, and to make an all-out effort to provide adequate leadership to human thought and decision. All were left free, however, to determine their own limits, if any, and to decide their own actions. According to law, the Hierarchy - even at danger point - could not infringe human free will and dictate or impose a course of action based on their own deeper knowledge and more profound insight.

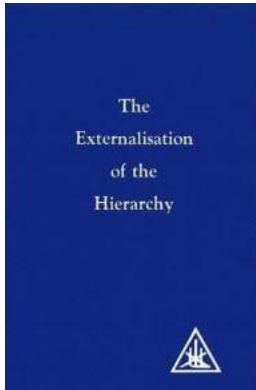

Many of the spiritual factors surrounding the period of human history from 1919 to 1949 are presented in this book. The energies at work behind the world scene are shown; and the identity revealed of certain great Beings magnetically attracted in service towards this planet at a climaxing moment in the evolution of our planetary life.

These factors are an aid to our understanding of the interrelated energy patterns within the universe which operate according to law. But essentially they provide the esotericist with knowledge of available energy flow responding to planetary purpose and plan which can be contacted and given conscious and intelligent cooperation, particularly by those in whom the selfish, self-centred will has been transcended so that the spiritual will can be given more adequate expression. Some of these energy factors are particularly clear in the special "Messages" given over a period of many years at the time of the Festivals of Easter, Wesak and the Christ.

Many aspects of Hierarchical work, thought and planning are discussed in these Messages, with the Hierarchical effect shown of planetary evolution and initiation and its reflection into humanity. This achieved a climax at the time of the three Festivals in 1945, when a momentous decision was taken involving, among other results, the eventual externalisation of the Hierarchy and the reappearance of the Christ.

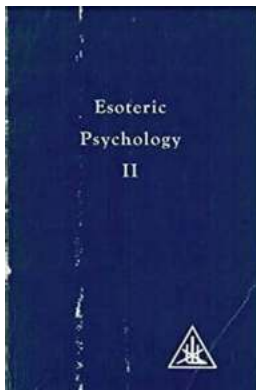

The final section of the book discusses the "Stages in the Externalisation of the Hierarchy". It is often difficult for the human mind to imagine the problems facing those liberated from the restrictions of form. It is even more difficult to contemplate the effects in those so liberated of a free choice to reassume such a limitation.

So we are helped to understand what the interdependence of life on this planet really signifies in terms of love, sacrifice and service by the part to the needs of the whole.
