"Still, I didn't fit society's definition of traditional womanhood in my looks or actions. I prayed to God to help me be more womanly; help make my hips wider, help make them sway more when I walk. But nothing changed.

I lie.

Some things did change. But they changed through my own doing. I tried to change who I was.

I tried to become quiet and docile and I tried to dress as they said girls were to dress. The end result was a deep-seated dissatisfaction with self and a denial of purpose. Most days, I felt like Paul; like probably this was a thorn in my side. This was the thing that I would continually have to pray about to keep me humble.

What the hell was wrong with me?" - Excerpt from Letters to My Sister

Letters to My Sister deals specifically with the burdens, habits and purpose of women in society. The book deals poignantly with the issues of identity that women face, challenging many things which have traditionally been taught about what it means to be woman; classifying that which is divine and that which isn't. The Letters are delivered transparently and boldly, tempered with empathy, humor and gravity when necessary.
