At twenty-six, Adam Ballinger had a good degree, a fiancée, and a well-paid job.

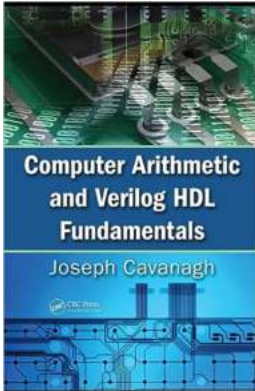

So what made him risk it all for the gruelling, year-long SAS selection course, with a better than ninety per cent chance of failing to win the toughest badge in the British Army at the end of it?

Over the months of combat patrols, press-ups, punishing runs and Gas! Gas! Gas!, the ordeals of The Long Drag and hostile interrogation, Ballinger learnt that who you think you are and what the Army wants you to be are two very different things, and that the end product of selection bears little relation to either.

This vivid, often funny account of the varied characters who commit so much to training for the 'misfits regiment' is remarkable both for its unromantic authenticity, and for its objective attempt to find out why. A question, Ballinger discovered, that few, if any, in the SAS could answer.

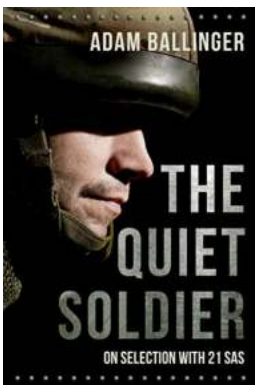

Adam Ballinger was twenty-six when he joined the Territorial Army. Following publication of *The Quiet Soldier*, he left the City of London, where he worked in finance and management consultancy, and began a long career in education. He has taught in four secondary schools and has led over twenty school-based

expeditions. He founded a Service Project, renovating a school in Central Africa and has written for the OUP, HMSO, Sunday Times and Saturday Telegraph. He is currently a Headmaster in England.
