Sense of Wonder is an inspirational picture book for grown up kids.

I used to think the emotional bond between a parent and child defined the most meaningful connection possible in the human experience. Having my own family gave my life purpose and direction. It wasn't until the grandchildren came along though, that I began to fully appreciate the profound depth of unconditional love that transcends time and connects the hearts and spirits of those from every generation.

When my children were growing up, I was so consumed by the struggle to fulfill the duties of responsibility, that I didn't have time to appreciate the magic around me. But with arrival of grandchildren came the opportunity to step back and marvel at the intuitive wisdom kids share every day with innocent eloquence.

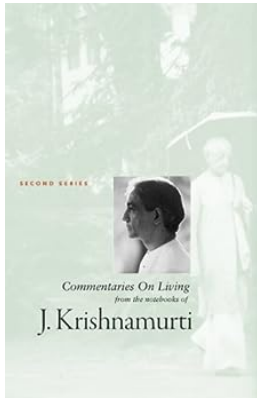

The following pages are an earnest effort to share with you, just a few of the fun, honest moments I've been able to capture of my children and grandchildren over the years, and to relate some of the sensible life lessons they have inadvertently imparted on me along the way.

I sincerely hope you have as much fun paging through these moments as I did photographing them and creating the picture book.
