Bringing Movies to Life Through Maps

Cinemaps enhances our understanding of movies by visually depicting the film's locations, character trajectories, and key scenes. Every map included in the book tells a story on its own, showcasing the journey that both the characters and the audience experience throughout the film. It allows us to revisit beloved movies from a fresh perspective.

Uncovering Hidden Gems

One of the most exciting aspects of Cinemaps is the discovery of hidden details that may have gone unnoticed during the original viewing of the films. The maps reveal connections between scenes, plot developments, and overlapping storylines, providing a deeper appreciation for the complexity of these cinematic masterpieces. It's like putting on a pair of 3D glasses and discovering a whole new layer of magic.

Exquisite Artistry

The craftsmanship behind each map in Cinemaps is truly exceptional. Andrew DeGraff combines his skills as an illustrator and his passion for movies to create intricate pieces of art. The maps are visually stunning and capture the essence of each film's unique atmosphere and narrative. From the sprawling streets of Gotham City to the vivid landscapes of Middle-earth, each map is a work of art in its own right.

Unlocking the Essence of 35 Great Movies

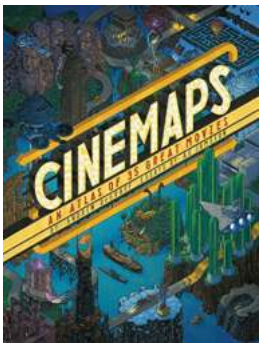

Cinemaps acts as a guide that transports readers into the captivating worlds of these 35 cinematic treasures. It allows us to immerse ourselves in the intricate details of each film and gain a deeper understanding of the director's vision. Whether you're a die-hard movie buff or simply looking for a beautifully illustrated coffee table book, Cinemaps offers a delightful journey through the heart of cinema.

The Value of Cinemaps

The book's combination of visually stunning artwork and insightful commentary makes it a valuable addition to any film lover's collection. It sparks conversations and encourages discussions about the intricacies of storytelling, cinematography,

and the impact of movies on our lives. Cinemaps is more than just an atlas; it's a gateway to exploration and appreciation of the art of filmmaking.

This beautifully illustrated atlas of beloved movies is an essential reference for cinephiles, fans of great films, and anyone who loves the art of mapmaking.

Acclaimed artist Andrew DeGraff has created beautiful hand-painted maps of all your favorite films, from King Kong and North by Northwest to The Princess Bride, Fargo, Pulp Fiction, even The Breakfast Club—with the routes of major characters charted in meticulous cartographic detail. Follow Marty McFly through the Hill Valley of 1985, 1955, and 1985 once again as he races Back to the Future. Trail Jack Torrance as he navigates the corridors of the Overlook Hotel in

The Shining. And join Indiana Jones on a globe-spanning journey from Nepal to Cairo to London on his quest for the famed Lost Ark. Each map is presented in an 9-by-12-inch format, with key details enlarged for closer inspection, and is accompanied by illuminating essays from film critic A. D. Jameson, who speaks to the unique geographies of each film.
