Catographics is the first book ever published to focus on vintage cat photographs from the years spanning 1845 to 1920. It includes 57 rare images reproduced in full color that include daguerreotypes, the earliest photographic format, to ambrotypes, tintypes, cartes de visite, cabinet cards, stereoviews and real photo postcards from those earliest years. Most are from the personal collection of the author gathered over fifty years of searching and have never before been published. Because of the independent nature of felines to be kept still for their portrait during those early years, their images are far rarer than those of dogs. This is the purrrfect book for those who love cats and especially vintage photographs.
